**Subject:** Fwd: [EXTERNAL] FW: AMDIAP Avoidance, Minimization and Compensatory Mitigation Plan

Adam, Maryellen-

I just spoke to you this afternoon, Maryellen, about the possibility of a call next week to discuss restoration opportunities that some of us are aware of and that might be relevant to your Avoidance, Minimization and Compensatory Mitigation Plan for Ambler Road. I've had some brief discussions with Bob Henszey (FWS), Marcia Heer (EPA), and Matt Varner (BLM) so far and thought it might be worthwhile to compare notes all together.

Let us know what you think and when might be a good time.

Best,

Jeff

FYI, we provided your contact information so the applicant can get ideas from you for potential compensatory mitigation if they choose to. Since you are landholders or land managers and familiar with this area, we feel it is appropriate for the applicant to discuss ideas with you. As you know, the Corps has final say over any compensatory mitigation the applicant may propose, but we would like them to have the best available information in order to select the most appropriate compensatory mitigation projects. Please keep me informed of any discussion you may have with them if feasible.

Thanks!!

Ellen Lyons

Subject: RE: AMDIAP Avoidance, Minimization and Compensatory Mitigation Plan

Hi Adam,

Thank you for the meeting today regarding a mitigation plan. I wanted to summarize the information we requested and the schedule for reviewing and approving a mitigation plan:

- \* conceptual Avoidance, Minimization and Compensatory Mitigation Plan by mid November
- \* final Avoidance, Minimization and Compensatory Mitigation Plan by mid December

Questions regarding avoidance and minimization:

Provide:

- \* Justification of how a two-phased road without a pioneer road would not be practicable, and therefore could not be the Least Damaging Practicable Alternative under the 404 b 1 Guidelines. We have concerns that the phased approach with a pioneer road may not be considered the LEDPA.
- \* Justification for a 32-foot wide roadway.

Fyi agency contacts who expressed interest in possible compensatory mitigation with this project are:

Please cc on any correspondences regarding mitigation.

Jeff Rasic, NPS-907-455-0632

Bob Henszey, FWS-907-456-0323

Annie Whitley, EPA 206-553-0058

Faith Martineau, DNR, 907-269-0949

John Sargent

Project Manager

Subject: [Non-DoD Source] AMDIAP Mitigation

Hi, John.

Maryellen asked us to give you a call to make sure we get you what you need regarding the compensatory mitigation plan. Are you available for a call tomorrow?

Thanks,

Adam Morrill
